OBJECTIVE

Electronics and Telecommunication Engineer, seeking full-time roles.

EDUCATION

Bachelor of Electronics and Telecommunication, Shivaji University

2021 - 2024

SKILLS

Technical Skills	C Programming, Python Programming, Microsoft Office,
Soft Skills	Communication, Leadership, Teamwork, Creativity, Problem-solving, critical thinking
Interest	Content Writing, Videography, Video Editing

INTERNSHIPS

- Completed internship in Data science at Oasis Infobyte.

EXPERIENCE

Fresher

PROJECTS

Contactless Human Body Temperature Detector System - Built a device for industry and commercial purposes using Arduino Uno, Arduino IDE Software, and a Temperature Sensor. Used for detecting COVID-19 symptoms, a person with high body Temperatures can be detected from a certain distance reducing the risk to security Officials.

IOT Based Hydroponics plant monitoring system - Build a project to monitor crops grown in controlled situations using ESP-32 microprocessor, DHT11 sensor, Relays, and Drivers, TDS sensor.

EXTRA-CURRICULAR ACTIVITIES

- Actively present in the Cultural Club where we had numerous managed College Events.
- Participated in Project Competition Events at the college Level.

LEADERSHIP

- I have been in a role as a Treasurer in the ETSA (Electronics and Telecommunication Student Association) committee, where I have demonstrated my ability skills, and knowledge to plan and execute successful events. I had also worked as a student coordinator.
